GENE M'CANN HAS FINE

STOCK IN HIS FLOCK. Rodriguez as Good as Chase-Weiser Playing Star Fielding Game.

The New York Press has the following to say about Rodriguez, the Cuban first baseman of New London.

Gene McCann, former Booklyn Itcher, Pankee scout and Jersey City pitcher, Yankee scout and Jersey City manager, declared the other day in New London that in Joe Rodriguez he had a first baseman who excelled even Hal Chase at his best. McCann is managing the New London club of the Eastern League, and he borrowed the Cuban wonder from John McGraw.

"Rodriguez makes that bail do tricks, and he fields better than Chase in his prime. He is hitting 300 in this tricks, and he fields better than Chase in his prime. He is hitting .300 in this league, but I am not sure that he could hit big league hurling. But for fielding he's umbeatable," asserted Gene McCann. He also said that Bud Weiser, the outfielder whom he got for nothing from the Phillies and who was leading the league in hitting, was being watched by a lot of scouts, Bunny Hearne, former Glant pitcher, is the best flinger in the circuit.

MARKET WAS BUOYANT

Reading and U. S. Steel Led the Move-

ment in Representative Stocks.

New York, June 27.—The stock

New York, June 27.—The stock market experienced a general upward revesion of prices today, albeit the Mexican situation seemed to have lost none of its threatening aspects. Recoveries, which were considerably shaded in the final hour, were attributed in part to the oversold condition of recent days, as well as to causes of a less technical nature.

Among the helpful factors were the action of the Interstate Commerce Commission, which in essence granted materially higher freight rates to did transcontinental roads, increased cop-

transcontinental roads, increased copper dividends and an "extra" for Central Leather, additional gratifying railway earnings, a new high mark for the country's exports and another large importation of British gold, increasing the total from that source to the country's exports.

Reading and United States Steel led the movement in representative stocks, the former recovering 2 1-2 points of its loss of the preceding day, while Steel made an extreme rise of

two from its minimum of the opening. The strength of these issues went far towards restoring speculative confi-

dence.

War issues were in better demand in than for days past on reports that Washington was about to award some substantial contracts to manufacturers of munitions. Crucible Steel was the conspicuous feature of that group, at its best showing a gain of 4 points, while allied industrials and equipments ranged 2 to 3 points higher. Coppers were naturally stimulated by the larger disbursements to shareholders, Anaconda gaining 3 1-4 and Motors responded in like measure.

Mexican Petroleum and other oils were firm to strong in the forenoon

Mexican Petroleum and other oils were firm to strong in the forenoon but lost ground later, the former showing a net loss of one point on heavy selling at the close. Half a score of miscellaneous issues including U. S. Industrial Alcohol and shipping shares, recorded variable but substantial gains, during the intermediate session. Aside from Reading, rails were listless during the forenoon, but contributed to the activity of the later dealings mostly at better prices. Total sales amounted to 535,000 shares.

Union Pacific showed a net gain for May of \$1,582,000 and various southern and southwestern lines reported increases over the corresponding month of last year.

Foreign exchange was marked by contrasting movements, Sterling being strong, with heaviness in marks. Bonds were irregular, with slight heaviness in Canadian issues. Total sales, par value, aggregated \$2,790,000. U. S. bonds were unchanged on call.
